Won't you never know
who you will belong
down the corner I will follow you (babe)
stop to laugh at me (please don't)
don't think I'm idiot (think it)
you can make my heart blow instantly (hear it)

Don't never tease me
won't you believe me
you need me
as I need you so bad
hush babe kill me
with all your kisses
coz this time
you gotta give me

Love me for one night
I tell you why
I give you my life
take me one more time
until the light
comes into your eyes

Be mine all night long
don't tell you gotta go
you take me in heaven... in paradise

Lay don't next to you (closer)
that's what I should do (so nice)
wrap me into your arms (always)
and I'll be there
let me be the one (honey)
make you feel alive (so right)
there's a magic coming all around (rock me)

Oh can't you see
I'm head over feet
let me be the one for you ever
hush babe kill me
with all your kisses
coz this time
you gotta give me

Love me for one night
I tell you why
I give you my life
take me one more time
until the light
comes into your eyes

Say number one
say number two
say number three
say number four
keep on staying close to me
feel the heat inside

Say number one
say number two
say number three
say number four
shaking to the left shaking to right
I'll be by your side

Oh oh my love is forever
ah ah can see it in my eyes
oh oh just be nice and tender
eh eh you're the only one for me

Love me for one night
I tell you why
I give you my life
take me one more time
until the light
comes into your eyes

Love me for one night
I tell you why
I give you my life
take me one more time
until the light
comes into your eyes
