I, I love to play on the internet
And i, I love to surf round the internet

(*)

I power up I switch on
I'm on line all day
I'm interactive in every way
In every way

(chorus)

Internet love
Now I've been bitten by the
Internet bug
I surf the highway for
Computer love
I'm stuck on internet love
I'm stuck on internet love
I, I like to fly around in cyberspace
Cos my virtual rocket can go any place

(repeat *)

(repeat chorus to fade)
