

Lolly

"Better Than Ever"

Visit "[Better Than Ever](#)" on MotoLyrics.com

Our love is better - our love is better
Our love is better - our love is better
Our love is better - our love is better
It's better than ever
Better than ever before

Don't know if I'm coming
Don't know if I'm going
If I think, I'll start to cry
Never had nobody
Never met somebody
Thought that love had passed me by

It's better late than never
That's what I say

It's better than ever
Ever before
Now I've found you
Who could want more
You're the best thing
This time it's for sure
It's better than ever
Better than ever before

(Our love is better - our love is better)

Remember when I told you that I didn't love you
I was just tryin' to be cool
I wanted some reaction - physical attraction
I guess sometimes I'm just a fool

It's better late than never
That's what I say

It's better than ever
Ever before
Now I've found you
Who could want more
You're the best thing
This time it's for sure

It's better than ever
Better than ever before

(Our love is better - our love is better)

Our love is better - our love is better
Our love is better - our love is better
Our love is better - our love is better
It's better late than never
That's what I say

It's better than ever
Ever before
Now I've found you
Who could want more
You're the best thing
This time it's for sure
It's better than ever
Better than ever before

(Our love is better - our love is better)
