I see you falling
It's my name you're calling
I rush to be by your side
You know I'm always here
So there's nothing to fear
Now wipe away all your tears
A shoulder to cry on
Someone to rely on
I'll do anything for you
You are my best friend
On me you can depend
Our friendship will never end
Remember

(chorus)
Big boys don't cry (repeat x4)
Always forever
We'll be together
Destiny leads the way
If we both follow
There'll be no sorrow
So let nature take it's way
Remember

(repeat chorus to fade)
