"Dance In The Rain"

Visit "[Dance In The Rain](#)" on MotoLyrics.com

The rain is falling, look it's pouring
And I can hear it calling our names
Can you see it you must hear it
Let's go outside before I go insane

(*)

You know that this
This is something you shouldn't miss
The rain is like a gentle kiss
Let it wash all over you
You know you want to

(chorus)

Come on out and dance in the rain

And we'll get soaking together
Let it fall from the heavens
Come on out and dance in the rain
Till we get wetter and wetter
Tell me what could be better?
I almost taste it - don't wanna waste it
I wanna catch every drop in the air
Why are we waiting and hesitating
Come on let's go out before it's too late

(repeat *)

(repeat chorus to fade)
