It never rains, it never rains, but it pours

There are some times I think that things could not get worse

There are some times I swear I think that I've been cursed

I get back up on my feet again

And then I get knocked down just to start again

Maybe it's just me

But bad luck always comes in threes

One - when you're hurting

Two - when you're lonely

Three - when you think your heart couldn't take no more

It never rains

It never rains, but it pours

Sometimes I count to ten so I don't lose my temper

I hold my head high - stand proud

And think to myself - 'whatever'

I tell myself things'll work out fine

But in my heart I know it's a waste of time

Maybe it's just me

But bad luck always comes in threes

One - when you're hurting

Two - when you're lonely

Three - when you think your heart couldn't take no more

It never rains

It never rains, but it pours

It never rains but it pours - oh, oh never

It never rains, it never rains but it pours

Never - never it never rains but it pours

Never - never it never rains but it pours

Never - never it never rains but it pours

I get back up on my feet again

And then I get knocked down just to start again
Maybe it's just me
But bad luck always comes in threes

One - when you're hurting
Two - when you're lonely
Three - when you think your heart couldn't take no
more
It never rains
It never rains, but it pours

One - when you're hurting
Two - when you're lonely
Three - when you think your heart couldn't take no
more
It never rains
It never rains, but it pours
