"One Plus One"

Visit "[One Plus One](#)" on MotoLyrics.com

One plus one equals two (x2)

Remember from the start
I had a broken heart
I'd shy away from love
Woh - oh woh - oh
You were so kind to me
Your eyes had honesty
Now you belong to me
Woh - oh woh - oh

The two of us are united
Never could be divided
History is what we're writing
One plus one equals two

We'll always be together
Ride out the stormy weather
We've got each other - one plus one equals two
We'll always be whatever
Our love was built forever
We've got each other - one plus one equals two

(One plus one equals two)

Our hearts they beat in time
They know the rhythms right
I think they read our mind
Woh - oh woh - oh
If we step back in time
We'd see our love collide
We see ourselves inspired
Woh - oh woh - oh

The two of us are united
Never could be divided
History is what we're writing
One plus one equals two

We'll always be together
Ride out the stormy weather

We've got each other - one plus one equals two
We'll always be whatever
Our love was built forever
We've got each other - one plus one equals two

One plus one equals two (x2)

We'll always be together
Ride out the stormy weather
We've got each other - one plus one equals two
We'll always be whatever
Our love was built forever
We've got each other - one plus one equals two

Repeat bridge

Repeat chorus
