You left the light on in my heart
Now I can't sleep - I'm counting stars
I hold my pillow tight
And I wonder where you are tonight

You left a light on in my heart
You sprinkled moondust to light up the dark
Darling I'm all overcome
Mother Nature tells me you're the one

I hope and I pray at night - that you just might
Find your way here back to me
I'm sure you'll find - just given time
That you belong to me
Cos you left the light on in my heart

You left the light on in my heart
Cupid was there right from the start
Like a bolt out the blue
I know his aim was straight and true

And when the flowers bloom - the sweet perfume
Reminds me of time spent with you
I'd turn back time - if you'd say you'd be mine
And love me one more time
Cos you left the light on in my heart
Cos you left the light on in my heart
Baby, baby - you left the light on in my heart.
