The day is long  
Things going wrong  
Seems you can't take it  
Don't want to fight  
'Cause no hope's in sight  
Fell you won't make it  
The smiles you cry  
Show hurt inside  
No need to fake it  
Well I am here to comfort you  
'Cause I know just what you're going through

(Chorus)

There's a light  
At the end of the tunnel  
It's waiting for you  
Just hold on  
And believe that you're going  
To make it on through  
Things will work out fine  
Just give them time  
Relax your mind  
It's all up to you

Look deep inside  
And you'll find the drive  
Needed to go on  
You must not quit  
When the road is bent  
That's when you've got to hold on  
This is your life  
Cling to it tight  
Don't ever give in  
The sun will shine after the rain  
You've gotta use your pride  
To wash away your pain

(Chorus)

It's up to you  
So dry those tears  
And pray away your fears

Upt to you  
To make your dreams come true  
It's up to you  
You can win the race  
When it seems there is no way  
Just gaive it your best  
You can ace the test  
You can deal with the stress

(Chorus)
