1, 2, 3..

The picture frame's been empty for quite some time  
Still think of you more than I would like  
Don't spare a passing glance or dare call out my name  
The very thought of it is driving me insane

I miss you but I really miss what we had  
I need you but I really need what we had

I wanna be your acoustic affair  
The reason you dream of what if's  
I wanna be your acoustic affair  
But baby, life's not fair

Know it's been said and it's been over sung  
But fate's cruel heartless and a loaded gun  
Don't pull the trigger now, I can do that on my own  
I'm a big girl so watch me sink into the unknown

I see you but I don't see the one I love  
I touch you only 'cause I feel unloved

I wanna be your acoustic affair  
The reason you dream of what if's  
I wanna be your acoustic affair  
But baby, life's not fair

Can you take me and mold me into that girl  
I was before you threw me into this harsh, harsh world  
Your lines always sound better the first time  
So stop singing them to other girls, they were mine

I wanna be your acoustic affair  
The reason you dream of what if's  
I wanna be your acoustic affair  
But baby, oh baby

I wanna be your acoustic  
I wanna be your acoustic  
I wanna be your acoustic
