um before you go just let me kiss you one more time
i'll make you stop at that door and press rewind
im probably somewhere up in paris smelling wine
lets have a ball cause i ball like debutime
and if its a crime then i could
girl we must be flies cuase im on your shit and your on
mine
girl dont even trip cause im on your hip and a gun on
mine
and the day i slip will be the day the sun dont shine

baby hold up a second, before you leave
mama put that purse down come back to me
i know your running late but baby ima make it work your
while
if you stay here
baby take them shoes off, unbutton that blouse
take the pin out your hair let your hair hang out
unzip that skirt..
i know you gotta go but babe before you go
lay you down for me on the floor
so i can make up this scene
baby before you go crazy put on this show
so i can make up this dream
