Come back, you know I miss you
Got to hold you once again in my life

It's late, it's quiet
A taxi waits at the door
Footsteps, a door slams
What's going on? It's quarter to four

So many times, so many tears
So many words unspoken
So many doubts, so many fears
So many hearts are broken

'Cause I'm lonely and I miss you tonight
(Come back)
Got to hold you again in my life
(Come back)
'Cause I'm lonely and I need you tonight
(Come back)
Got to hold you again in my life
(Come back)

The phone keeps ringing
Are you there with a friend?
I call back, it's busy
I'll hang up and try once again

So many times, so many tears
So many words unspoken
So many doubts, so many fears
So many hearts are broken

'Cause I'm lonely and I miss you tonight
(Come back)
Got to hold you again in my life
(Come back)
'Cause I'm lonely and I need you tonight
(Come back)
Got to hold you again in my life
(Come back)

Woh ho, so many times, so many tears

So many words unspoken
So many doubts, so many fears
So many hearts are broken

'Cause I'm lonely and I miss you tonight
(Come back)

Got to hold you again in my life
(Come back)

'Cause I'm lonely and I need you tonight
(Come back)

Got to hold you again in my life
(Come back)

'Cause I'm lonely and I miss you tonight
(Come back)

Got to hold you again in my life
(Come back)

Ooh, I'm lonely and I need you tonight
(Come back)

Got to hold you again in my life
(Come back)

(Love you, miss you, need you, want you back in my
life)

Come back, baby come back

(Love you, miss you, need you, want you back in my
life)

Come back, hey, come on, come on back

(Love you, miss you, need you, want you back in my
life)

Take a boat, take a train, take the aeroplane, just come
on back

Yeah, yeah, come on back

(Love you, miss you, need you, want you back in my
life)

I don't care, I don't care how you do it, come on back
baby
