I see you're moving, see you're moving, moving in with
her
You'll pierce your right ear, pierce your heart here, this
skinny boy is one of the girls
'Cos around my neck and around her neck hangs
everything you are
I know you've been inside but what were you in for?

Animal lover, animal lover, animal lover?
I see you're moving, see you're moving like wildlife
from the waist
But when your name's scratched in on a shiny ring your
waist is my resting place
And around my neck and around her neck hangs
everything you are
I know you've been inside but what were you in for?

Animal lover, animal lover, animal lover?
