"Morning"

Visit "[Morning](#)" on MotoLyrics.com

Sleepy head get out of bed
Big bad world is calling
Step in your shoes and catch the news
It's another morning

Morning, it's morning
Morning, it's morning again

Rub your eyes as nature sighs
The population's yawning
Just step in your shoes there's so much to do
It's a brand new morning

Morning, it's morning
Morning, it's morning again

And all around this cardboard town
The cops are crawling
The sirens scream and break your dreams
It's morning

It's morning
It's morning
