"She"

She, walking like a killer,
She, another night another pillow.
Nowhere places, nowhere faces, no one wants to see,
No education, it's the arse of the nation,
She is bad, she is bored, she is bony, she is ...
She, sh-shaking up the karma,
She, "injecting marijuana",
Nowhere places, nowhere faces, no one wants to see,
No education it's the arse of the nation,
She is bad, she is bored, she is bony, she is
she
Nowhere faces, nowhere places, no one wants to be,
No situmulation in this privatisation,
She is bad, she is bored, she is bony, she is she.
