"We Are The Pigs"

Well the church bells are calling
Police cars on fire
And as they call you to the eye of the storm
All the people say "Stay at home tonight"

I say we are the pigs, we are the swine
We are the stars of the firing line

And as the smack cracks at your window
You wake up with a gun in your mouth
Oh let the nuclear wind blow away my sins
And I'll stay at home in my house

I say, we are the pigs
we are the swine
we are the stars of the firing line

But deceit can't save you so

We will watch them burn
