Oh, well you might have some conversation
Smashed in a bar
Clocking all of the disco dolls that blind you
Or check out some mad situations
Some silly farce
So real, you can feel it twist inside you

But everywhere you go
Everything you do
Every place you know
Every word you choose

I'm in everybody's eyes
Everybody's lives
I'm in everything you see
You belong to me

Oh, well you might walk down by the station through
garbage and rust
And breath in all the diseases just like I do
Or driving through some conurbation you'll step on the
gas
And I'll be sat right there beside you

Cos everywhere you go
Everything you do
Every place you know
Every word you choose

I'm in everybody's eyes
Everybody's lies
I'm in everything you see
You belong to me

Well you can smash the windows
and break some faces
or spray graffiti on public places
or act round some dead town
But I'll be there

Cos everywhere you go
Everything you do
Every place you know
Every word you choose

I'm in everybody's eyes
Everybody's lies
I'm in everything you see
You belong to me
