Mmm ah ah...

We can build it with love

Peace and happiness, oh

We can build it with hope

Faith, togetherness

There are roads that divide us

To our separate lives

River deep, valley low and mountain high

And oh oh

We need a bridge between our lives

A bout of understanding for the other side

Let's build a bridge from me to you (ah...)

Not for the chosen few

But for everyone

We can build it with love (love)

We can build it with peace (peace)

We can build it with happiness (happiness), oh

If we can learn to believe (believe)

There's nothing we can't achieve (achieve)

We can overcome the bitterness (bitterness)

Hey, just believe it

Come on board

Set the sails of hope in motion, oh

Sure the boat

Feel the winds that change

They blow they blow they blow

We need a bridge between our lives

A bout of understanding to stem the tide

Let's build a bridge from me to you (ah...)

Not for the chosen few

But for everyone

We can build it with love

We can build it with peace

We can build it with happiness, come on

If we can learn to believe

There's nothing we can't achieve

We can overcome the bitterness

Hey

Yes, it will

A little bit of bitterness

Oh, we've got the power, people, flower, people

We've got the power

The knowledge to grow
The seeds to flower
The reaper to sow
It's all of the people
Working together
It's all of a sequel
No one is better
Power, people, flower, people
Power, people
Flower, people
