It's getting mighty hot here
The weather outside is so severe
I'm a man, I can't wait
'Till you take me there
Yes, I'm a man and I don't care
Gotta take me there
If pleasure is your one delight
Then you can show me this tonight
Yes, I'm a man and I don't care
Gotta take me there
First thing Monday morning
I stumble out of bed
Without single warning you came into my head
I realise, then I realise
I want you in my life
Talk to me now, tell me dear
Do we have a love affair?
See I'm a man, is it clear?
Got to take me there
I'm a man, I'm a man, better take me there
First thing Monday morning
I stumble out of bed
Without a single warning you came into my head
I realise I want you in my life
I realise I want you in my life
I realise I want you in my life
I realise I want you in my life
Repeat to end
