I wish you never even loved me  
It makes it so hard to live without love  
Now I know, you're often thing of me  
Sometimes I feel you so close by that  
It takes all my might to keep from  
Trying to track you down

I can surly keep you out of sight  
Forget about the way you look  
Your smile, the way you speak  
But I've heard in the dead of night  
Outside my window silence breaking  
With the solid destination of your lonesome speed

I know the sound of your wheels  
Yeah, yeah, yeah  
I know the sound of your wheels  
Yeah, yeah, yeah  
I know the sound of your wheels

I had a handle on my sorrow  
My composure was in order  
If not sufficiently intact  
But every reminiscent echo brings a blow  
To chill my senses and my heart quakes  
And tenses till those moments pass

I know the sound of your wheels  
Yeah, yeah, yeah  
I know the sound of your wheels  
Yeah, yeah, yeah  
I know the sound of your wheels

Every trace, every vision  
Brings my emotions to collision  
Past love's lost tokens  
Every cherished thought once spoken  
False hope of reconciliation

I know the sound of your wheels  
Yeah, yeah, yeah  
I know the sound of your wheels

Yeah, yeah, yeah  
I know the sound of your wheels
