It don't jingle like a jingle bell
It ain't made by a bunch of elves
It don't come from the old North Pole
Can't be delivered by a Ho-Ho-Ho

What it is
Your gonna love it
You can't get to much of it
Here's the package baby open it up
I'm givin' you all my love for Christmas
I'm givin' you all my love

You won't find it underneath the tree
You can't buy it with a roll of green
It's the thing that makes life worth living
It's the gift that just keeps on giving
What it is
Your gonna love it
You can't get to much of it
Here's the package baby open it up
I'm givin' you all my love for Christmas
I'm givin' you all my love

Yeah what it is
Your gonna love it
You can't get to much of it
Here's the package baby open it up
I'm givin' you all my love... for Christmas
I'm givin' you all my love for Christmas
I'm givin' you all my love
