Got us a situation  
It don't need no explanation  
It don't take a scientist  
To figure out just what this is

Unlike the changing seasons  
Love happens without reason

It's as simple as that  
Two people meet  
It's destiny that they're together  
It's as simple as that  
I knew when I met you that this would last forever  
It's as simple as that  
And I can promise you that I will leave you never  
I'm happy right where I'm at  
It's as simple as that

It's how I feel when you call my name  
It's holdin hands in the pourin rain  
A slow dance that never ends  
The sweet sound of violins

And even when we're apart  
You beat around in my heart

It's as simple as that  
Two people meet  
It's destiny that they're together  
It's as simple as that  
I knew when I met you that this would last forever  
It's as simple as that  
And I can promise you that I will leave you never  
I'm happy right where I'm at  
It's as simple as that

It's as simple as that  
Two people meet  
It's destiny that they're together  
It's as simple as that  
I knew when I met you that this would last forever  
It's as simple as that

And I can promise you that I will leave you never  
I'm happy right where I'm at  
It's as simple as that
