"What Would It Take"

Visit "[What Would It Take](#)" on MotoLyrics.com

I held the world in my arms
I threw away the moon far the stars
Didn't see the forrest for the trees
Couldn't see the love in front of me

What would it take to take me back
Rebuild that bridge, retrace me tracks
I would give all I own
For one little steppin' stone
What would it take to take me back

I miss waking up with you there
Morning sun bouncing off you hair
You all tangled up in silk and lace
A master piece no one can paint

What would it take to take me back
Rebuild that bridge, retrace my tracks
I would give all I own
For one little steppin' stone
What would it take to take me back
What would it take to take me back
