I said hello I think I'm broken
And though I was only jokin'
It took me by suprise when you agreed
I was tryin' to be clever
For the Life of me I never
Would have guessed how far the simple truth would
lead
You knew all my lines
You knew all my tricks
You knew how to heal that pain no medicine could fix.

Chorus

And I bless the day I met you
And I thank God that he let you
Lay beside me for a moment that lives on
And the good news is I'm better
For the time we spent together
And the bad news is your gone.

Verse 2

Lookin' back its still suprising
I was sinking, you were rising
With a look you caught me in mid-air
Now i know God has His reasons
But sometimes its hard to see them
When I awake and find that your not there
You found hope in hopeless, You made crazy sane
You became the missing link that helped me break my
chains

Chorus
