

Loney, Dear "I Love You"

Visit "[I Love You](#)" on MotoLyrics.com

in with the dark nights, in with the weight down clouds
suburbs and stations, longrange trains coming in
how can you manage, how can you bear me now
coming in fast, bringing the lights | keeping me calm,
keeping me calm like you do | im tearing us down,
how can you do? keeping me downin with the trains,
rushing through the lands | in with the aeroplanes,
breaking through heavy nights | where does it go?
when does it sleep again | off with the devils,
off with the devils keeping me calm,
keeping me calm like you do, I love you, I love you,
keeping me calm. ...in with the trains, rushing like blood
to my limbs,
come over dance with me, come on over dance with
me
bring in the warmth, bring in the comfort to me,
citadel band play forme, citadel band play for me
keeping me calm, keeping me calm like you do.
I love you, I love you, off with the boards,
off with whats keeping me down, in with the arms,
in with whats keeping me calm, i cannot go, i cannot
do.
I love you. I love you. In with the arms, in with whats
keeping me calm.
