Now here I go  
Tryin' to make sense of what  
Don't make sense  
I think I'm past tense  
Meanin that I haven't  
Extravagant  
Weed  
Blunts  
We steady pass them  
Why you askin me shit  
I aint asked them  
Spanish bitch lookin like she from a pagent  
Heart as cold like the wind when it passed them  
I give her all ma blunts and then she ash them  
Chorus  
Hey lady in the hall  
Can you tell these people what I stand for  
They don't want peace they just want war  
Oh o oh oh oh oh o  
And they can take those  
I don't need em no more  
No more I don't need em no more  
No more I don't need em no more  
No mor I don't need em no mor  
Lady lost her love and now she don't call  
I'm leaning but I won't fall  
Sniffing coke in the stall  
That's what she do but she said she made a call  
You lying bitch I hold you down one and all  
I hope y'all don't fall  
But don't trip I'm telling no shit  
Remember in September eleventh  
You lost your mom  
I lost my heart  
Now Let me finish I lost my start  
We depart we never meet again  
That's the story as it's told  
But even then you still sittin on my lap  
Chorus  
Hey lady in the hall  
Can you tell these people what I stand for

They don't want peace they just want war  
Oh o oh oh oh oh o  
And they can take those I don't need em no more  
No more I don't need em no more  
No more I don't need em no more  
No more I don't need em no more  
If you ever lose your focus  
Just know this  
I didn't wrote this I never wrote shit  
I'm diseased like I got hit by locust  
Get another blunt cuz this aint hittin  
Like a broke fist  
No low shit I bet you no shit  
That's cuz I told shit I'm on my lean shit  
Be weed shit I'm on my lean shit  
I'm not a lie  
I'm truthful likes it's posed tuh be  
And all she sayin  
All she sayin is open me  
I get in deep  
Real deep like ovaries  
Yeah I got a o in my dungaries  
That's my genes  
God is lookin' over me  
Hey we shouldn't be here  
Gotta leave don't u think so  
Yea take wat you want with u  
Cuz we aint eva comin back again  
Come on  
Chorus  
Hey lady in the hall  
Can you tell these people what I stand for  
They don't want peace they just want war  
Oh o oh oh oh oh o  
And they can take those I don't need em no more  
No more I don't need em no more  
No more I don't need em no more  
No more I don't need em no more
