Rejected, with no where to go
Disconnected
From everything I've known
Forgotten
Left out in the cold

Bound by the darkness around me
Just when I was losing hope

Then your love breaks through
Endless pursuit
In spite of what and where I've been
Nothing left to prove
This heart rings true
When you find me (when you find me)
You remind me
Of who I really am

A story
That's rarely
Been told
Show me what destiny holds
Waiting
The future now unfolds (The future now unfolds)
Oh yeah
Now as the darkness is hiding
Hearts are flooded by your hope

Then your love breaks through
Endless pursuit
In spite of what and where I've been
Nothing left to prove
This heart rings true
When you find me (when you find me)
You remind me
Of who I really am

And now as the darkness is hiding
Just when I was losing hope (just when I was losing hope)
And now as the darkness is hiding
And now as the darkness runs

Then your love breaks through
Endless pursuit
In spite of what and where I've been
Oh
When you find me (when you find me)
You remind me
Of who I really am
