Probably the sound of angels
Is what I'm hearing in my head
And to me it is just so frustrating
Trying to understand
This is how I am
This is how I stand
This is what I want
This is what I had
Sitting, waiting, wondering now
Can feel you're coming down
You look so tired
You're always tired
Could be anything
This is how I am
This is how I stand
This is what I want from me
This is what I'm gonna be
This is what's been said
This is what was never meant to happen
Now things have gone wrong
This is what I've lost
This is what I've found
This is what I hope
This is all around
This is how I am
This is how I stand
This is what I want
This is what I had
This is how I am
This is how I stand
This is what I want from me
This is where I'm gonna be
This is what's been said
This is what I never meant to happen
Now things have gone wrong
