Signs reading to bold and clear  
So bold and clear  
Warning signs appearing here  
Is it near?  
And I still want it  
And I'm still on it  
And I still want it  
And I still want it  
Bells ringing so loud in here  
So loud and clear  
Uncertain times are near  
And I fear  
And I still want it  
And I'm still on it  
And I still want it  
And I still want it  
You and I  
Collapsed a thousand times already  
You and I  
Collapsed and died but never stopped and noticed  
Good times are coming  
Good times are coming  
Good times are coming  
Good times are coming  
Good times are coming (Still want it)  
Good times are coming (And I'm still on it)  
Good times are coming (And I still want it)  
Good times are coming (And I still want it)
