When the weight is on your shoulders
Come on your knees
When the weight is on your shoulders
Come on your knees

Wake me when it's over
Wake me please
Wake me when it's over

All the things you knew for sure
Were not what they seemed
All the things you knew for sure
Were not what they seemed

Wake me when it's over
Wake me please
Wake me when it's over

When all the noise has gone
Anything you want
I will give away
Just to watch you go
