Mean ol' baby, mean ol' baby girl.
She's a mean little baby, she's a mean little baby girl.
When you fall in love with her, she really upsets your
world.

She's got a man in every town, heartaches all around.
Yes, she's got a man in every town, all got heartaches
all around.
When you say baby do I love you, she gets her face all
full of frowns.

She don't love no one, she just wants someone to dog
around.
Yes, she don't love no one, just wants someone to dog
around.
You give her your heart and all your money, she calls
you an everyday clown.

She's the type you can't please, I don't care what you
do.
She's the type you can't please, I don't care what you
do.
Give her your heart and soul, she'll give all your love to
two.

Yes, you can't trust her, no farther than you can throw
her door.
Yes, you can't trust her, no farther than you can throw
your door.
Just as soon as you go to work in the mornin',
somebody comes into your back door.

Yes, she's a mean little baby, they call her Clementine.
She's a mean little baby, they calls her Clementine.
Her main aim in life, is makin' every good man whine.

She's got such evil little ways, she'll slip right under you
skin.
She's got such cute little ways, she gets right under
your skin.
And when you need her, she's slipped out and gone

again.

Well, if you run across this gal, please throw her out
your mind.

Well, if you run across this gal, podnah throw it out
your mind.

'Cause she'll win your love and your heart, she can
treat you so unkind.

When you start cryin', she'll be laughin' in your face.
When you begin cryin', she starts laughin' in your face.
She says, "I didn't want you anyway, got somebody
else in your place."

You can't quit her, you don't want to kill her now.
Yes, you don't want to quit her, yet you can't let that gal
alone.
You'll keep on tryin' to fight, till all your love is gone.

She's a evil little woman, they call her Clementine.
Yes, she's a evil little woman, they call her Clementine.
She'll break you heart baby, there's no sense in tryin'.
