1946 have come, babe but now it's gone.
1946 have come, babe but now it's gone.
I wanna leave with you people, '46 did not go so long.

So many people, who done passed away.
So many people, who done passed away.
But 1946 mama, sure have made its day.

Some people had lots of fun, so many people lost their
mind.
Some people had lots of fun, so many of them lost their
mind.
Some people went to the big house, just to serve a
long, long time.

Old year have come an' gone, new year have just
arrived.
Old year have come an' gone, new year have just
arrived.
But I hope it won't be just like the year has just passed
by.
