"Good Old Wagon"

You call on me, at all hours at night.
You call on me, at any old time.
And I was the good old wagon, I rolled for you rain or
shine.

When there was ice and snow, outside of your door.
When there was ice and snow, layin' outside of your
door.
Your good old wagon rolled for you, at times when I
really wasn't able to go.

Now I'm down, and can't hardly raise my hand.
Now I'm down, and can't hardly raise my hand.
Seems like because the good wagon 's gone down,
now its some other man.

I'm down now, and you wants to drive me 'way.
I'm down now, and you wants to drive me 'way.
You may mistreat me now, but you'll want for me some
old rainy day.
