"How Could You"

Visit "[How Could You](#)" on MotoLyrics.com

I didn't believe them, baby but now I know.
I didn't believe them, baby but now I know.
You in love with my best friend, and how could you hurt
me so?

You know you didn't love me, why didn't you let me
alone?
You know you didn't love me, why didn't you let me
alone?
You have wrecked my life, and now you've tore up my
home.

This has been goin' on for eleven long years today.
This has been goin' on for eleven long years today.
Yes you know I love you baby, how could you treats me
this a way?

You in love with my best friend, how could you do me
like that?
You in love with my best friend, how could you do me
like that?
It all comes to show you, even your best friend can be a
rat.
