Your little eyes so blue, your kisses too,
I never knew what love could do -
I can't believe you're in love with me.

You're tellin' everyone you know,
I'm on your mind each place you go.
I can't believe you're in love with me.

I've always placed you so high above me.
I really can't imagine maybe that you in love with me.

After all's been said and done,
To think I'm still that lucky one -
I can't believe you're in love with me.

I've always placed you so high above me.
An' really can't imagine baby that you in love with me.

After all's been said and done,
To think I'm still that lucky one -
I just can't believe you're in love with me.

Your little eyes are blue, your kisses too.
You still believe you're in love with me -
Baby I'm in love with me.

You're tellin' everyone you know,
I'm on your mind each place you go.
I can't believe you're in love with me.

I've always placed you so high above me.
Really can't imagine baby that you in love with me.

With all's been said and done,
To think I'm still that lucky one -
I can't believe, I can't believe,
Can't believe that you're wrapped up in love with me.
