When I watch the stars that shine,
Thank Mr. Moon for being so kind,
I feel like this whole world is mine.
Baby, don't you know that's love.

Baby, when you feel the way I do,
Nothin' can take the place of you.
I'm with you and I feel the same as you.
Baby, don't you know that's love?

Baby, you make me feel so gay.
All my troubles passed away.
I don't even care 'bout the time of day.
Baby, don't you know that's love?

I love your kisses I love your smile.
Just plain nuts about you, it's just drivin' me wild.
When I'm with you I'm just a baby child.
Don't you know that's love?
