Love, love is only a game.  
When you lose in life it's no one but yourself to blame.  
Maybe you lonely and blue, someone is searchin' for  
you.  
Love is just funny that way.

Still, I'm in love again.  
Can't you see that it's still you again?  
That's why my love for you must never end.  
I'll never make you blue, long as I have you,  
Deep down in my heart and soul.

I'm so in love again.  
Can't you realize that it's still you again?  
I'll be by you like that ol' fashion friend.  
I will love you from the start until the end.

Please don't ever make me sigh.  
Honest I would never make you cry.  
Why should I take your heart and soul, and your love  
for the pleasure,  
Then just cast it away, when I need you night and day?

I'm so in love again.  
Can't you see that it's still you again?  
That's why my love will always be true.  
I'll never make you blue, long as I'm in love with you.

Please don't ever make me sigh.  
Honest I would never make you cry.  
Why should I take your heart and soul, and your love  
just for the pleasure,  
Then just cast it away, when I need you night and day?

I'm so in love again.  
Can't you see that it's still you again?  
That's why my love will always be true.  
I'll never make you blue, long as I'm in love with you,  
That's from my heart and in my soul.
