How can I love you woman, when she stays out both
night and day.
How can I love you woman, when she stays out both
night and day.
I can be ever so kind, but soon I will change my ways.

Well, when love get its start, nothing you can do is but
wait for it change.
When love get its start, nothing you can do is to wait for
it change.
Ah, just like runnin' from de rain, love leaves your heart
with pains.

I once was unhappy, unhappy both night and day.
I once was unhappy, unhappy both night and day.
But now I've found someone that loves me, I'm happy
in each and every way.
