Don't you understand me baby? There'll never be no
other one but you.

Don't you understand me baby? There'll never be no
other one but you.

I loved you then and I love you now, and no one else
will ever do.

Every time the sun goes down, my love comes down
for you.

Every time it rains, my love comes down for you.

'Cause there's no other woman, will understand me the
way you do.

If you would listen to me baby, we would still be
together today.

If you would only listen to me baby, we would still be
together today.

But instead of listenin' to me baby, you listen to
everything people has got to say.

Baby, please come home darling, there's nobody in
your place.

Please come home darling, there's nobody in your
place.

Home is no home to me baby, without your smilin' face.

I love you so baby, my love for you will never stop.

I love you so baby, my love for you will never stop.

And when it begins raining baby, my love is down like a
five-cent mop.
