Man, love will make you drink and gamble, and walk
the streets all night long.

Man, love will make you drink and gamble, and walk
the streets all night long.

Especially when your home is empty, and the woman
you love is gone.

Baby, you can treat me mean, do anything you want to
do.

Baby, you can treat me mean, do anything you want to
do.

I'm just wanderin' can you take it, when it all doubles
back on you?

I love you with all my heart, I treated you nice and kind.

I love you with all my heart, I treated you nice and kind.

Yes, you hurt me 'cause I love you, to satisfy your
unselfish mind.
