It's so lonesome, when you have to sleep all by  
yourself.  
It's so lonesome, when you have to sleep all by  
yourself.  
When the one you love, you lost to somebody else.

When you lay down on your pillow, behind you is a  
empty space.  
When you lay down on your pillow, behind you lies a  
empty space.  
Where the one you love, has let someone else take  
your place.

When you got a good woman, treat her kind in every  
way.  
When you got a good woman, treat her kind in every  
way.  
Because I want to tell you, ain't a good woman is found  
every day.
