What makes a rooster, crow every mornin' before day?
What makes a rooster, crow every mornin' before day?
To let the pimps and rambler know, the poor
workingman is on his way.

We up before sunrise, workin' 'leven long hours a day.
We up before sunrise, workin' 'leven long hours a day.
We pay house rent and grocery bills, and the pimp gets
the rest of the pay.

Men, we got to get together, yes, something's got to be
done.
We make the money, while the pimp has the fun.
You know where there's only grocery and no money,
there ain't no fun.

Men I found out, you can't keep a whole woman by
yourself.
Yes I found out, you can't keep a whole woman by
yourself.
So you might as well live and let live, and give the other
half to somebody else.
