Man, its one thing for sure, you never can tell what's on
your woman's mind.

Man, its one thing for sure, you can never tell what's on
your woman's mind.

She will make you believe that she love you, and she's
playin' you for deaf, dumb, and blind.

Love is something, something that money can't never
buy.

Love is something, something money can't never buy.
So please take my advice, and don't you ever try.

You can give your woman plenty money, you can dress
her up in ta fancy gown.

You can give your woman plenty money, you can dress
her up in fancy gown.

She will tell her outside man, that she's got the
dumbest, the dumbest man in town.
