"Almost Always"

Visit "[Almost Always](#)" on [MotoLyrics.com](#)

I almost always smile
Sometimes I almost always never want to cry
I rarely ever think about
What you put me through
Cause I'm almost always almost over you
I know the worst must be behind me
Cause I clearly do recall a time
When everything seemed to remind me
Now you hardly ever cross my mind
Chorus

I seldom relive any moments
And I constantly don't think about goodbye
There must've been reasons why you left me
But I hardly ever wonder why

Chorus

Yea-I'm almost always almost over you
