Lucky ain't the captain of the football team  
Lucy's not in contention for homecoming queen  
Ain't no mistakin' them for Marilyn or James Dean  
Lucky got a camero when he turned sixteen  
He picks up Lucy every night, she lives on Bailey Street  
yeah  
Somehow they beat the system and they got away  
clean  
Yeah Lucy got Lucky  
Don't you worry about Lucy, man, she's doin' alright  
Everyone's a winner, now ain't they cool  
Lucy got Lucky but Lucky got lucky too

They don't worry about the future, no, they don't worry  
about the past  
They've got Cupid riding shotgun and a full tank of gas  
They ain't concerned about climbin' to no higher class  
So another Molly Ringwald, well she finds her Judd  
As four southern members of the Breakfast Club,  
Here's hopin' we all find that kind of love  
(Repeat Chorus Twice)  
Lucy got Lucky  
Don't you worry about Lucy, man  
She's doin' alright
