Last word was the last straw, I know  
But goodbye on top of everything, that camels back is  
broke  
I was over you, I swear, last night  
All I can say in this morning light  
Is not again..  
Making this mistake once more  
Not again..  
I have been here before  
It only takes a moment, one touch of your hand  
If I was over you, Im not again  
Im not again  
Well you know I only love you sometimes  
It comes and it goes,

Yeah it lives and it dies  
Oh and I have grown too tired to fight  
So I start my prayers every night  
With not again  
Making this mistake once more  
Not again  
I have been here before  
It only takes a moment, one touch of your hand  
If I was over you, Im not again  
It only takes a moment  
One touch of your hand  
If I was over you, Im not again  
Im not again  
Im not again  
Im not again
