Hardcore is supposed to be about unity  
It's supposed to be about looking out for each other  
But you just don't get it cause you've got this fantasy  
That's you'll gain respect by proving that you're  
tougher  
But what have you gained and where do you profit  
From beating kids down at underground shows  
You just set us back from what we could accomplish  
We don't need you around it's time that you go

What could Be better than just hanging out together  
We'll be letting it go dancing hard all night  
Pile on, sing along, nothings going wrong  
Until you came along to pick a fight  
He's either half your size or it's ten on one  
Do you really think we're impressed?  
We came here to support and have fun  
You've got to lay that tough guy act to rest

Strength in numbers if we stick together  
We can fight off those who threaten our scene  
We've seen it before but never again  
Maybe they can take one but they can't take us all  
Maybe they can take one **BUT THEY CAN'T TAKE US ALL**  
Maybe they can take one **BUT THEY CAN'T TAKE US ALL**

Positive youth crew we'll stick together  
Positive youth crew's were gonna take back our scene  
They won't beat kids down  
They won't push us around  
If they do then they'll answer to you and to me

We're gonna rake our scene  
**WE'RE GONNA TAKE OUR SCENE BACK**  
We're gonna take our scene back  
We're gonna take this scene back
