v1:

pluck ambrosia from vines
and drink grape wine from his jiggling cleavage
pouring open from his broken, arrow staken heart
imagine kindergarten, gluing red and pink construction
paper hearts
to shoeboxes

pc:

little fingers and thumbs
give tidings of
quote, unquote
love

ch:

and simple charity
very cute its insincerity
play dumb

v2:

a quill of arrows in tow

I track the cherub below
from elevated position
hoping for a certain easy mortal blow
I am owed a pennance
to this bloated piglet stealing hearts
from good logic

outro:

a cupid full of arrows is a
cupid full of love
play dumb
