[praetexta](subject)  
the orator's never listening  
but he understands us perfectly  
our fears, our hopes, our faults, our dreams  
this is what i do for him  
and this is what he does for me

[v1](narrator)  
when your time does  
whatever it is that time does  
when it doesn't  
at least as far as your concerned  
the periphery dissipates  
which is in essence what you might believe was your  
life  
was never even a part of it  
check mate... hey!

[choral](subject)  
the rusted screws  
serve a purpose  
bend at the elbows  
the arms are not just for melting off  
i can be your  
action figure  
pose me in your favorite military taunt

[postchoral]  
i will do backbends for anyone

[v2](narrator)  
consciousness fading  
does not leave room for the companionship of another  
blinking light  
that shared experiences

can be calculated as percentages of time spent  
waiting in line or taking out the trash  
is the scariest fucking thing  
checkmate... hey

[choral]

[postchoral 2](subject)  
i will do backbends for anyone  
warning! (narrator)  
a mob's an angry sea  
that swallows everything

[outro](orator)  
let's band together to protect the weak  
the weak they need a banner to fly  
and mine is the one that they'll hold up  
fasces... hey!  
our commodity is your dissent  
your angst, my wallet  
get in my wallet  
counterculture sure is big business!  
and this is what i do for it  
and this is what it does for me!

the [] = schedule in arrangement  
the () = which character is being played during the  
schedule.
