----INTRO

mhhh whatcha say  
mhhh that you only meant well  
well of course you did  
mhhh whatcha say  
mmm that its all for the best  
of course it is  
mmm whatcha say  
mhhhhh that its just what we need  
you decided this  
mmm what you say  
mmm what did you say?

[Verse 1:]

Ayo a lot of people ask me  
How could I let her pass me  
How could I let a classy girl  
That never harass me  
Shorty was never sassy  
Me, being so young and flashy  
Stuntin' like the girl never had me  
Can't say I was twisted  
But the heaven in my life, I was gifted  
But it's funny how the whole thing shifted  
Like a 5-speed stickshift  
Ain't lying, homie  
God as my witness,  
When I had her  
Everyday was like Christmas  
I stayed on the getless  
I stayed number one on the wishlist  
If I lose her, I ain't ready to risk it  
You walking away  
Ain't no way I find the cure for the sickness  
The only way to stop the pain is the biscuit  
Suicidal is vital, I wouldn't lie to you now  
You was my idol, whether you ridin' or not  
And maybe because my title, I reside in the drop  
But what'd you tell me, girl?

[Chorus]

What did she say?  
What you say?

I know I didn't hear what I thought I heard coming from  
your lips  
What you say?  
I can't believe you want to say good-bye to me  
What you say?  
We've come too far to just let it end like this  
What you say?  
What did she say?  
[Verse 2]  
Baby, you left me devastated  
Because you never hesitated  
You said you made it harder than it is supposed to be  
Tighter than a priest holding on a rosary  
But instead I'm slippin'  
Can't feel you holding me  
The crack's been revealed  
The facts can't conceal  
The fact I'm for real  
I'm back at your will  
You're havin' your way, girl  
Have a good day  
But tell me what did she say?  
What could possess you to make you want to give up  
on our love?  
It's driving me crazy trying to figure out what the hell  
happened to us  
I'll always be your man  
You'll always be my baby  
And I don't understand what you're saying to me  
I don't think I heard you right now, baby  
What you say?
